

Cell Tracer

The cell tracer shows you what's going on within an aggregated cell in Jedox. It shows the calculation time, number of cells being drawn on, the number of rule-calculated cells, and so on.

To use the cell tracer in an Excel report, right-click on a specific cell and select **Trace Cell Value**.

The screenshot below shows the information for an aggregated cell:

Cell Tracing Information

General
Value: 11,805,058.33
Type: Aggregated (Sum)
Database: Demo
Cube: Sales
Server: localhost

Cell Path

Dimension	Element
Products	All Products
Regions	East
Months	Year
Years	All Years
