

# Scheduler Task Status Codes

The following statuses are possible after the Scheduler runs an Integrator task:

---

10 Execution ended with Status "Successful"

---

20 Execution ended with Status "Warnings"

---

30 Execution ended with Status "Errors"

---

40 Execution ended with Status "Failed"

---

50 Execution ended with Status "Stopped"

---

55 Execution ended with Status "Interrupted"

---

60 Execution ended with Status "Aborted"

---

70 Execution ended with Status "Invalid"

---
